

SESSION 2

SETTING UP A TRAILBLAZER PLAYGROUNG

Practical Demonstration:

1. Sign in to Trailblazer

The screenshot shows the Salesforce Trailblazer account setup page. At the top is the Salesforce logo. Below it, the text reads "Let's set up your free Trailblazer account." followed by "Sign up using an existing account." There are four buttons for social login: Google, Salesforce, MuleSoft, and Tableau. Below these is a link "View more options". A horizontal line with "Or" in the center separates the social login options from the email login section. The email login section has a label "Business email" above a text input field. Below the input field is a blue "Next" button. At the bottom, there is a link "Explore Trailblazer account benefits." and a link "Already have an account? Log In."

2. Select the Country, State and Click “I Agree” to accept the terms and conditions of the agreement.

Step 2 of 3

Hi Sana! Where are you located?

We want to make sure you see the account terms for your area.

Country/region

India

State/province

Karnataka

☒ I agree to the [Main Services Agreement](#) and [Salesforce Program Agreement](#).

We value your privacy. To learn more, visit our [Privacy Statement](#).

3. Provide the following info:

Step 3 of 3

One last thing.

By providing the info below, we'll be able to find all the best content for you.

Company name

BMSCE

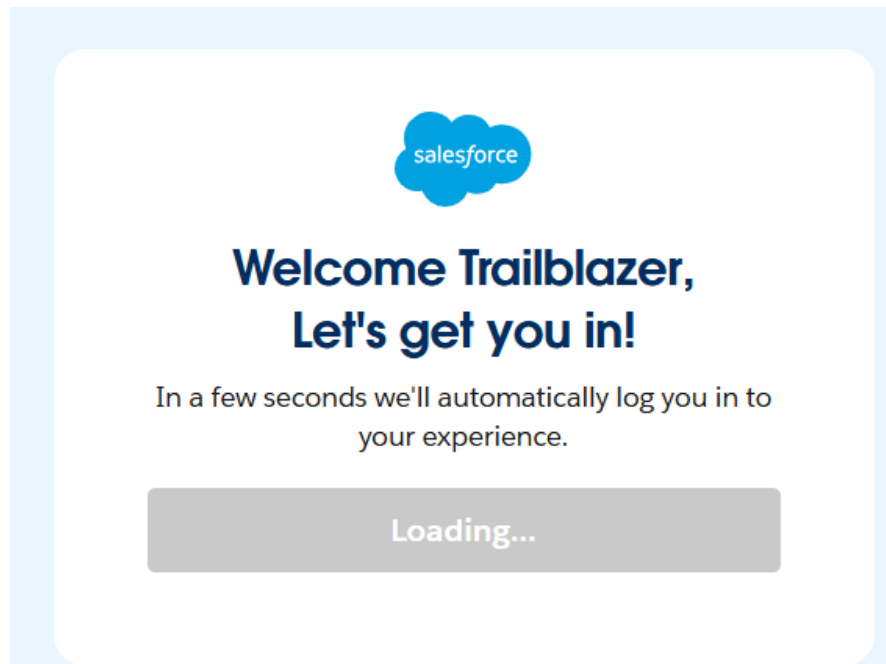

Role name

Student

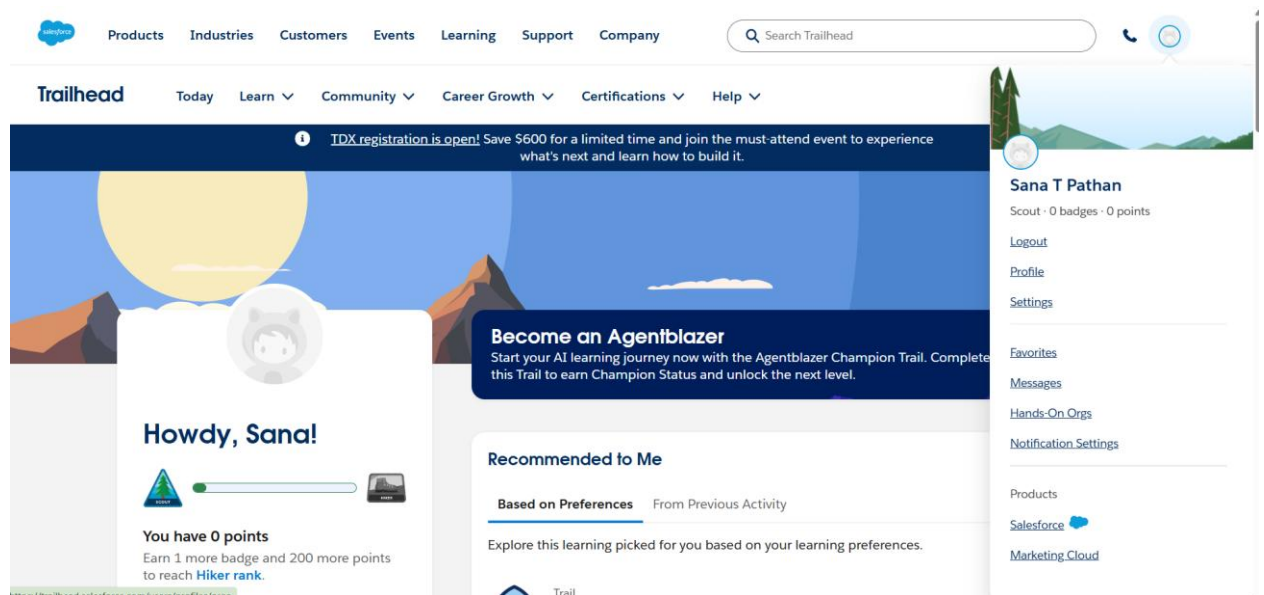

Relationship to Salesforce

Non-Customer / Prospect

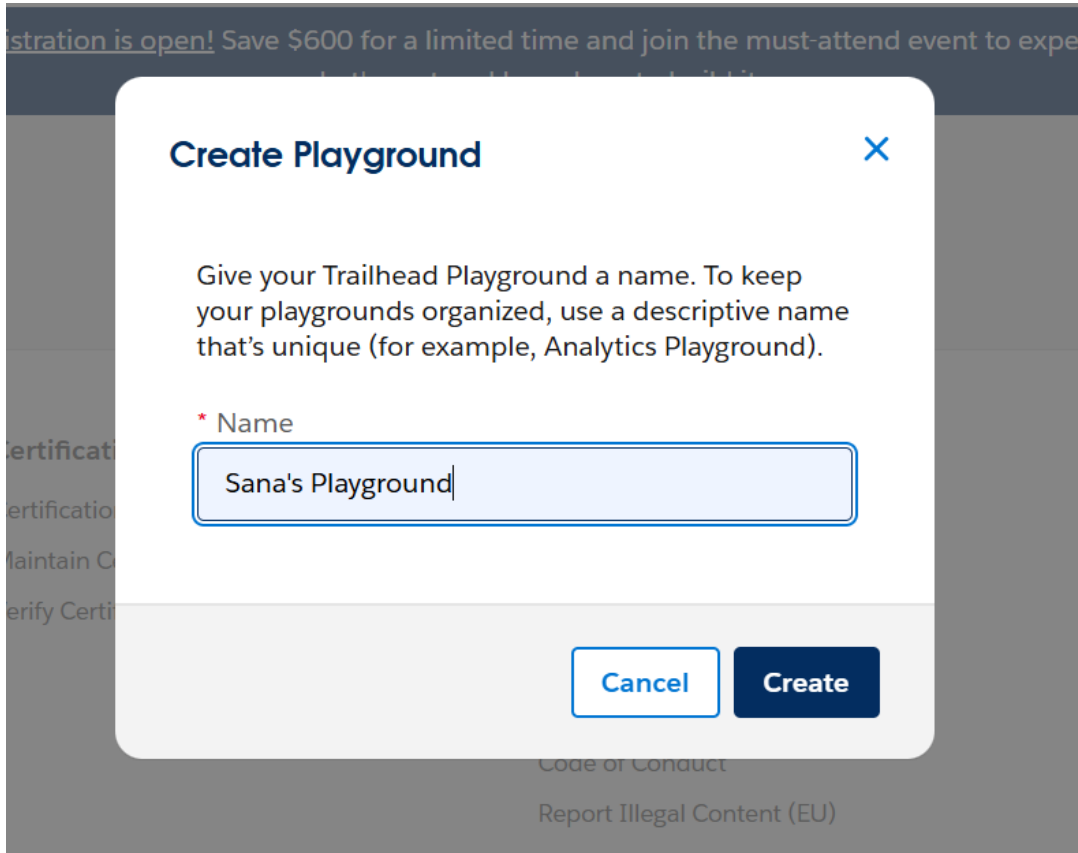

Next

4. You have successfully logged in now click on your profile and from the drop down menu select “Hands-On Orgs

5. Click on Create Playground. Specify the name of the playground and click on create

The screenshot shows a 'Create Playground' dialog box with a close button (X) in the top right corner. The text inside the dialog reads: 'Give your Trailhead Playground a name. To keep your playgrounds organized, use a descriptive name that's unique (for example, Analytics Playground).' Below this text is a label '* Name' followed by a text input field containing 'Sana's Playground'. At the bottom right of the dialog are two buttons: 'Cancel' and 'Create'.

Create Playground ✕

Give your Trailhead Playground a name. To keep your playgrounds organized, use a descriptive name that's unique (for example, Analytics Playground).

* Name

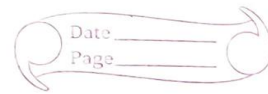

Sana's Playground

Cancel Create

6. You have successfully created a playground

Observation:

Session 2

Setting Up a Trailblazer Playground

1. What is a Trailblazer Playground?
(Salesforce Developer Environment)

⇒ A Trailblazer Playground is a free practice Salesforce environment provided by Salesforce through Trailhead

It is used for :

- Learning Salesforce features
- Practicing development
- Completing Trailhead challenges
- Building and testing apps safely

It works like a real Salesforce organization but is meant only for training and experimentation

2. Creating a New Trailblazer Playground for App Development

Creating a new Trailblazer Playground gives you a fresh, clean Salesforce environment

Why create a new one?

- To start a new project
- To avoid mixing old work with new work
- To test features separately

Steps:

- 1) Log in to Trailhead
- 2) Click on your profile → from the dropdown menu select 'Hands-on Orgs'
- 3) Click on Create Playground

Salesforce will generate a new practice org for app development

3. Introduction to Lightning App Builder (Low-code app development tool)

⇒ Lightning App Builder is a drag-and-drop tool available in Salesforce Lightning Experience

It is used to:

- Create custom app pages
- Customize record pages
- Design home pages

It is called low-code because you can build pages by dragging components (like reports, charts and fields) without writing much code.
